

/ pure.

**The floor
of silence.**

_____ vinyl planks & tiles.

Pure, the most quiet vinyl floor to welcome you home.

The floor is yours.

A floor that doesn't wake the little ones while you're sneaking in.

A worry-free foundation that survives your parties, family dinners and children chasing dogs (or the other way around?).

A floor that is unbelievably easy to install. For everyone. Whether it's your first time or your daily occupation.

It doesn't matter if you love traditional, elegant, cozy or creative designs. There is a Pure vinyl floor just for you.

A floor that is loved by everyone, even by our planet. Because the planks are 100% recyclable.

A floor for your home, your life.

There is a Pure floor for everyone.

Pure fits your interior,
your habits, your home.

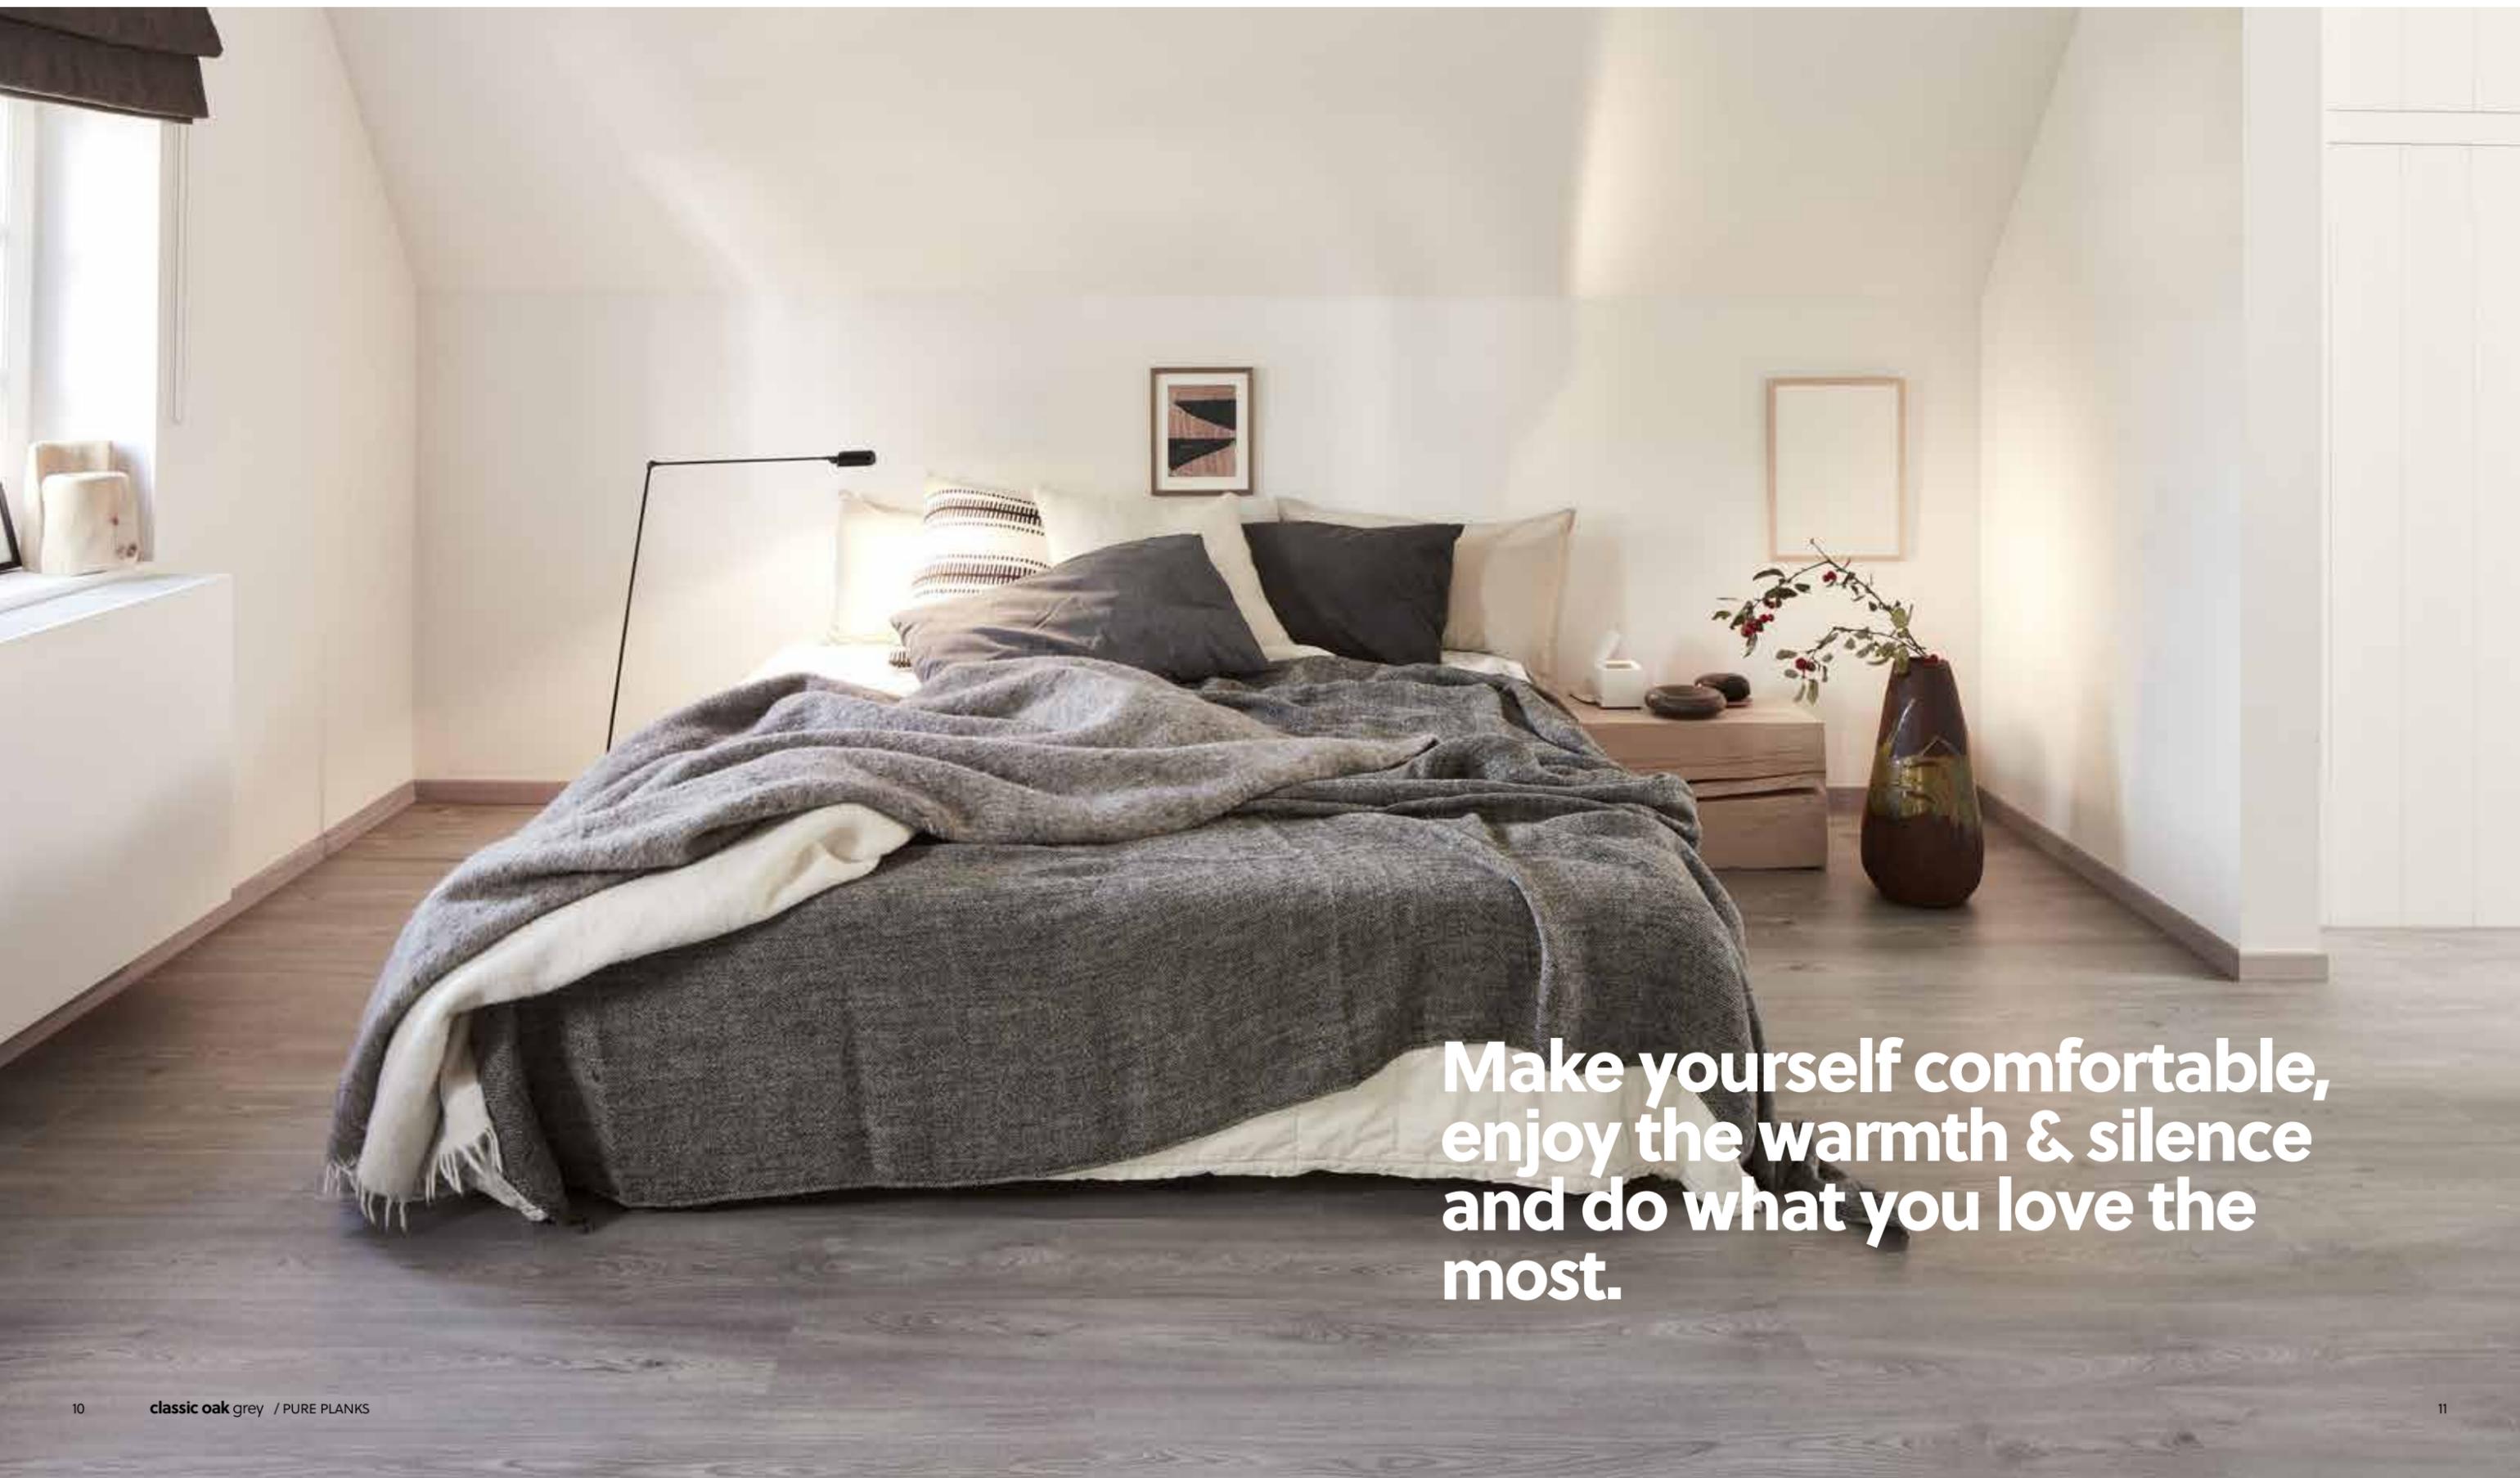

**Feel free to take off your
socks. Or leave your
boots on. We don't mind.**

Nothing beats the feeling of home.

Pure is made for all ages. The kids running around your house won't hurt themselves on this soft floor. The parents will love that it reduces the noise in every room. The friends won't believe how beautiful it is. Pure makes the moments you spend with the most important people in the world even more enjoyable.

**Make yourself comfortable,
enjoy the warmth & silence
and do what you love the
most.**

why choose / pure.

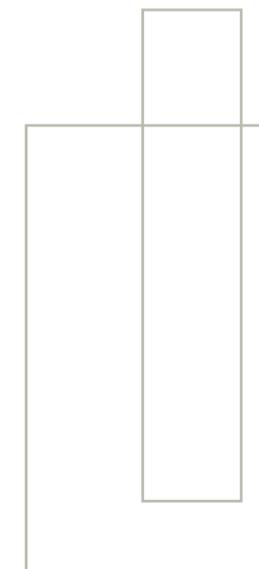

sssh floor

The most **ssshhh** floor on the market.

It's true: you definitely won't find a quieter floor. Pure has a unique soft top layer that is not only incredibly comfortable to walk on. It also absorbs the noise in every room. Comes in handy when you want to sneak in while your family is asleep.

The unique foamed top layer absorbs the walking sound, making it up to 50% more silent than other LVT floors.

Do you want to make your floor even quieter? Combine it with **Dreamtec+**, an underlayment that **reduces noise by 20 dB**. You will definitely fall in love with this cozy floor. And your downstairs neighbors will be crazy about it too, because your footsteps will sound softer than ever. The top always feels warm to the touch, but if you like it real warm you can of course combine it with **floor heating**.

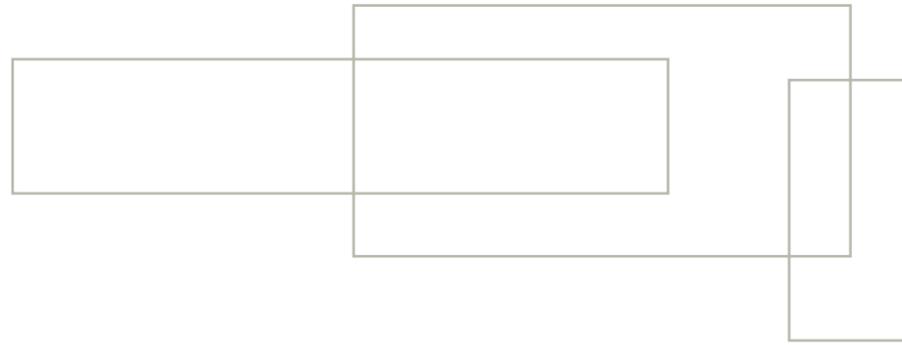

lightweight
rigid

DreamClick®

Light & rigid floors.

Quick and easy installation.

Did we mention that these floors take care of your back? Thanks to their foam structure, the planks and tiles are lightweight, which is great for transportation and extremely easy for you to install.

Over the past years, we have developed our unique **Rigid Composite Board**, or RCB. The RCB technology guarantees that there is **little or no preparation needed**. It goes over almost any existing floor. This patented formula also guarantees **floor stability** when temperature changes. Sudden changes from warm to cold or the other way around won't affect your floor, so you can **easily install Pure in front of large windows**.

With its strong lock, Pure flooring can easily withstand the frequent traffic of real, everyday lives. There is really no need to limit your guests going crazy on the New Year's Eve living room dancefloor.

Pure is light for you, and for the environment. Our floors save up to 30% material in comparison to other products on the market. Moreover, they can be **100% recycled** at the end of their lives.

DreamClick® locking system allows you to click the planks and tiles any way you want. So feel free to turn them around until you find the pattern of your dreams. You won't need any heavy equipment, just take a simple Stanley knife and you're good to go. No sawing, no dust. Get someone to help you, start in the middle and install at double speed. It is called DreamClick® for a reason.

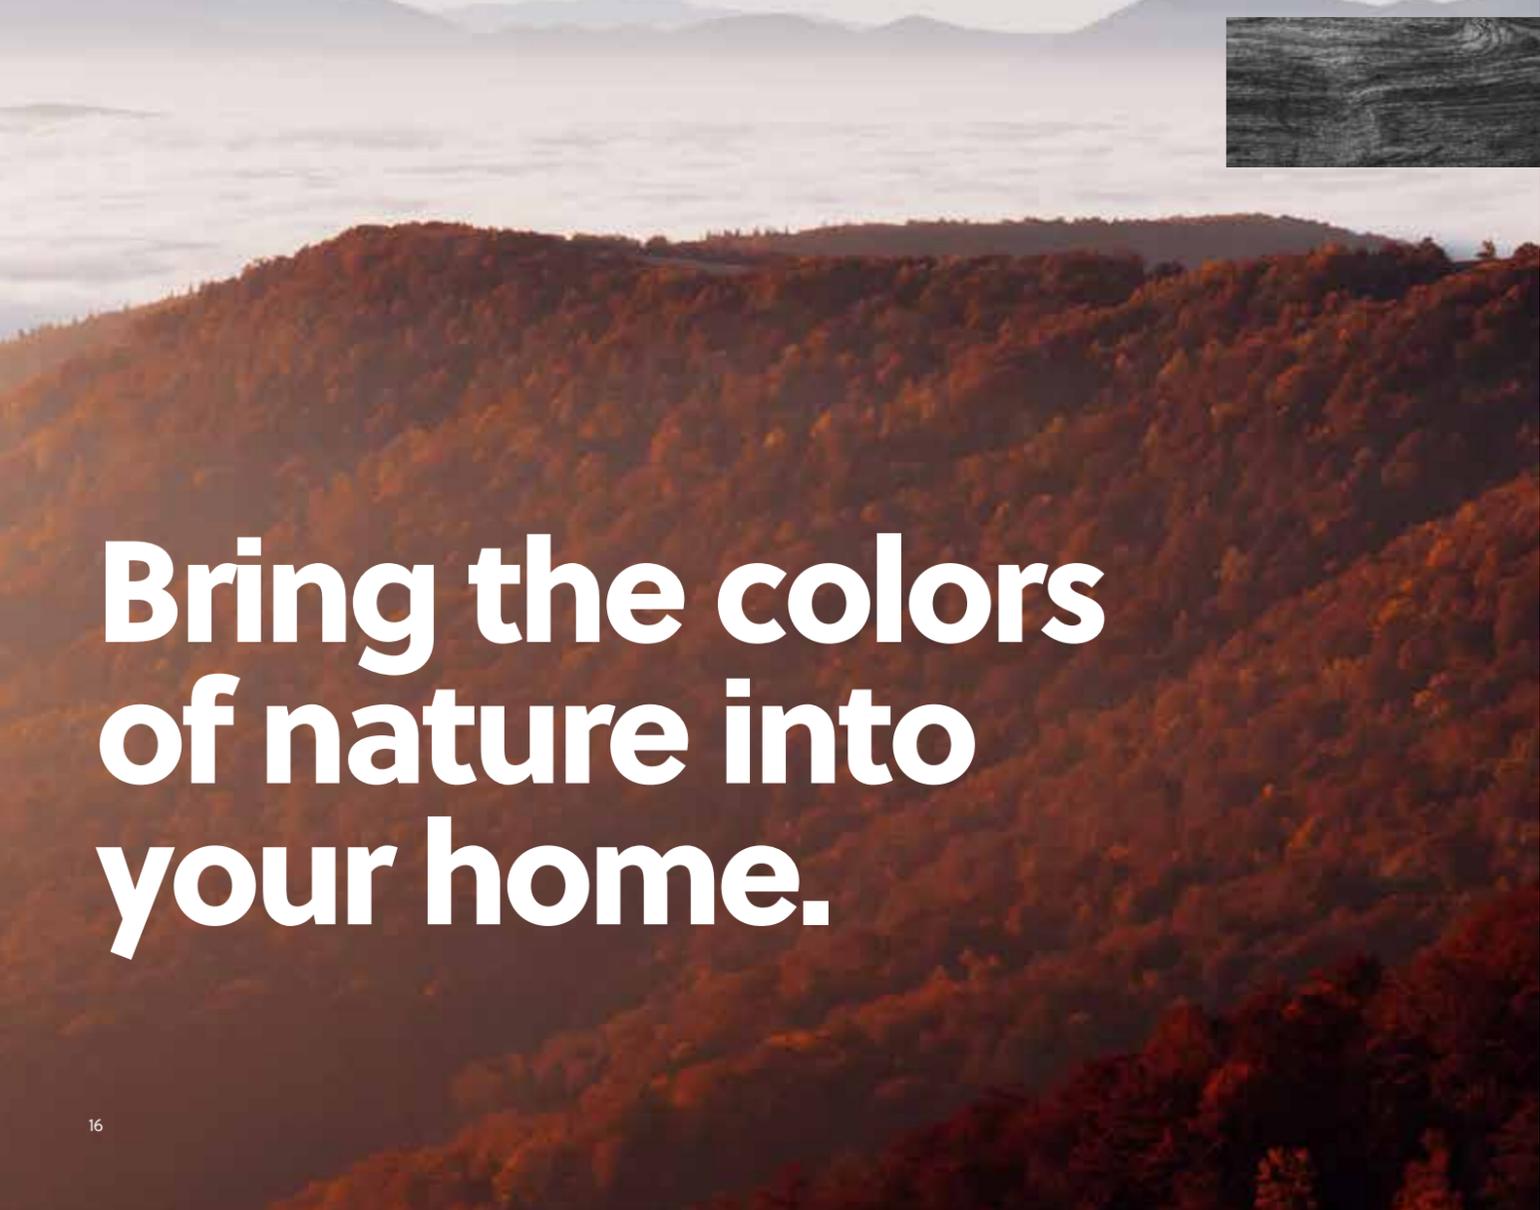

Sounds quick and easy? That's right. Thanks to our **unique locking system** you can **install 12 m² in 30 minutes flat**.

Whether you're a DIY'er or a professional, everyone loves our DreamClick®. The **360° interlocking system** allows you to use your creativity to the fullest and put together a floor that suits your space and your personality. Why not install it as a herringbone, a rectangular pattern or invent a whole new pattern of your own?

Our designs are inspired by nature. To bring some beauty from outside into your homes. Every single day.

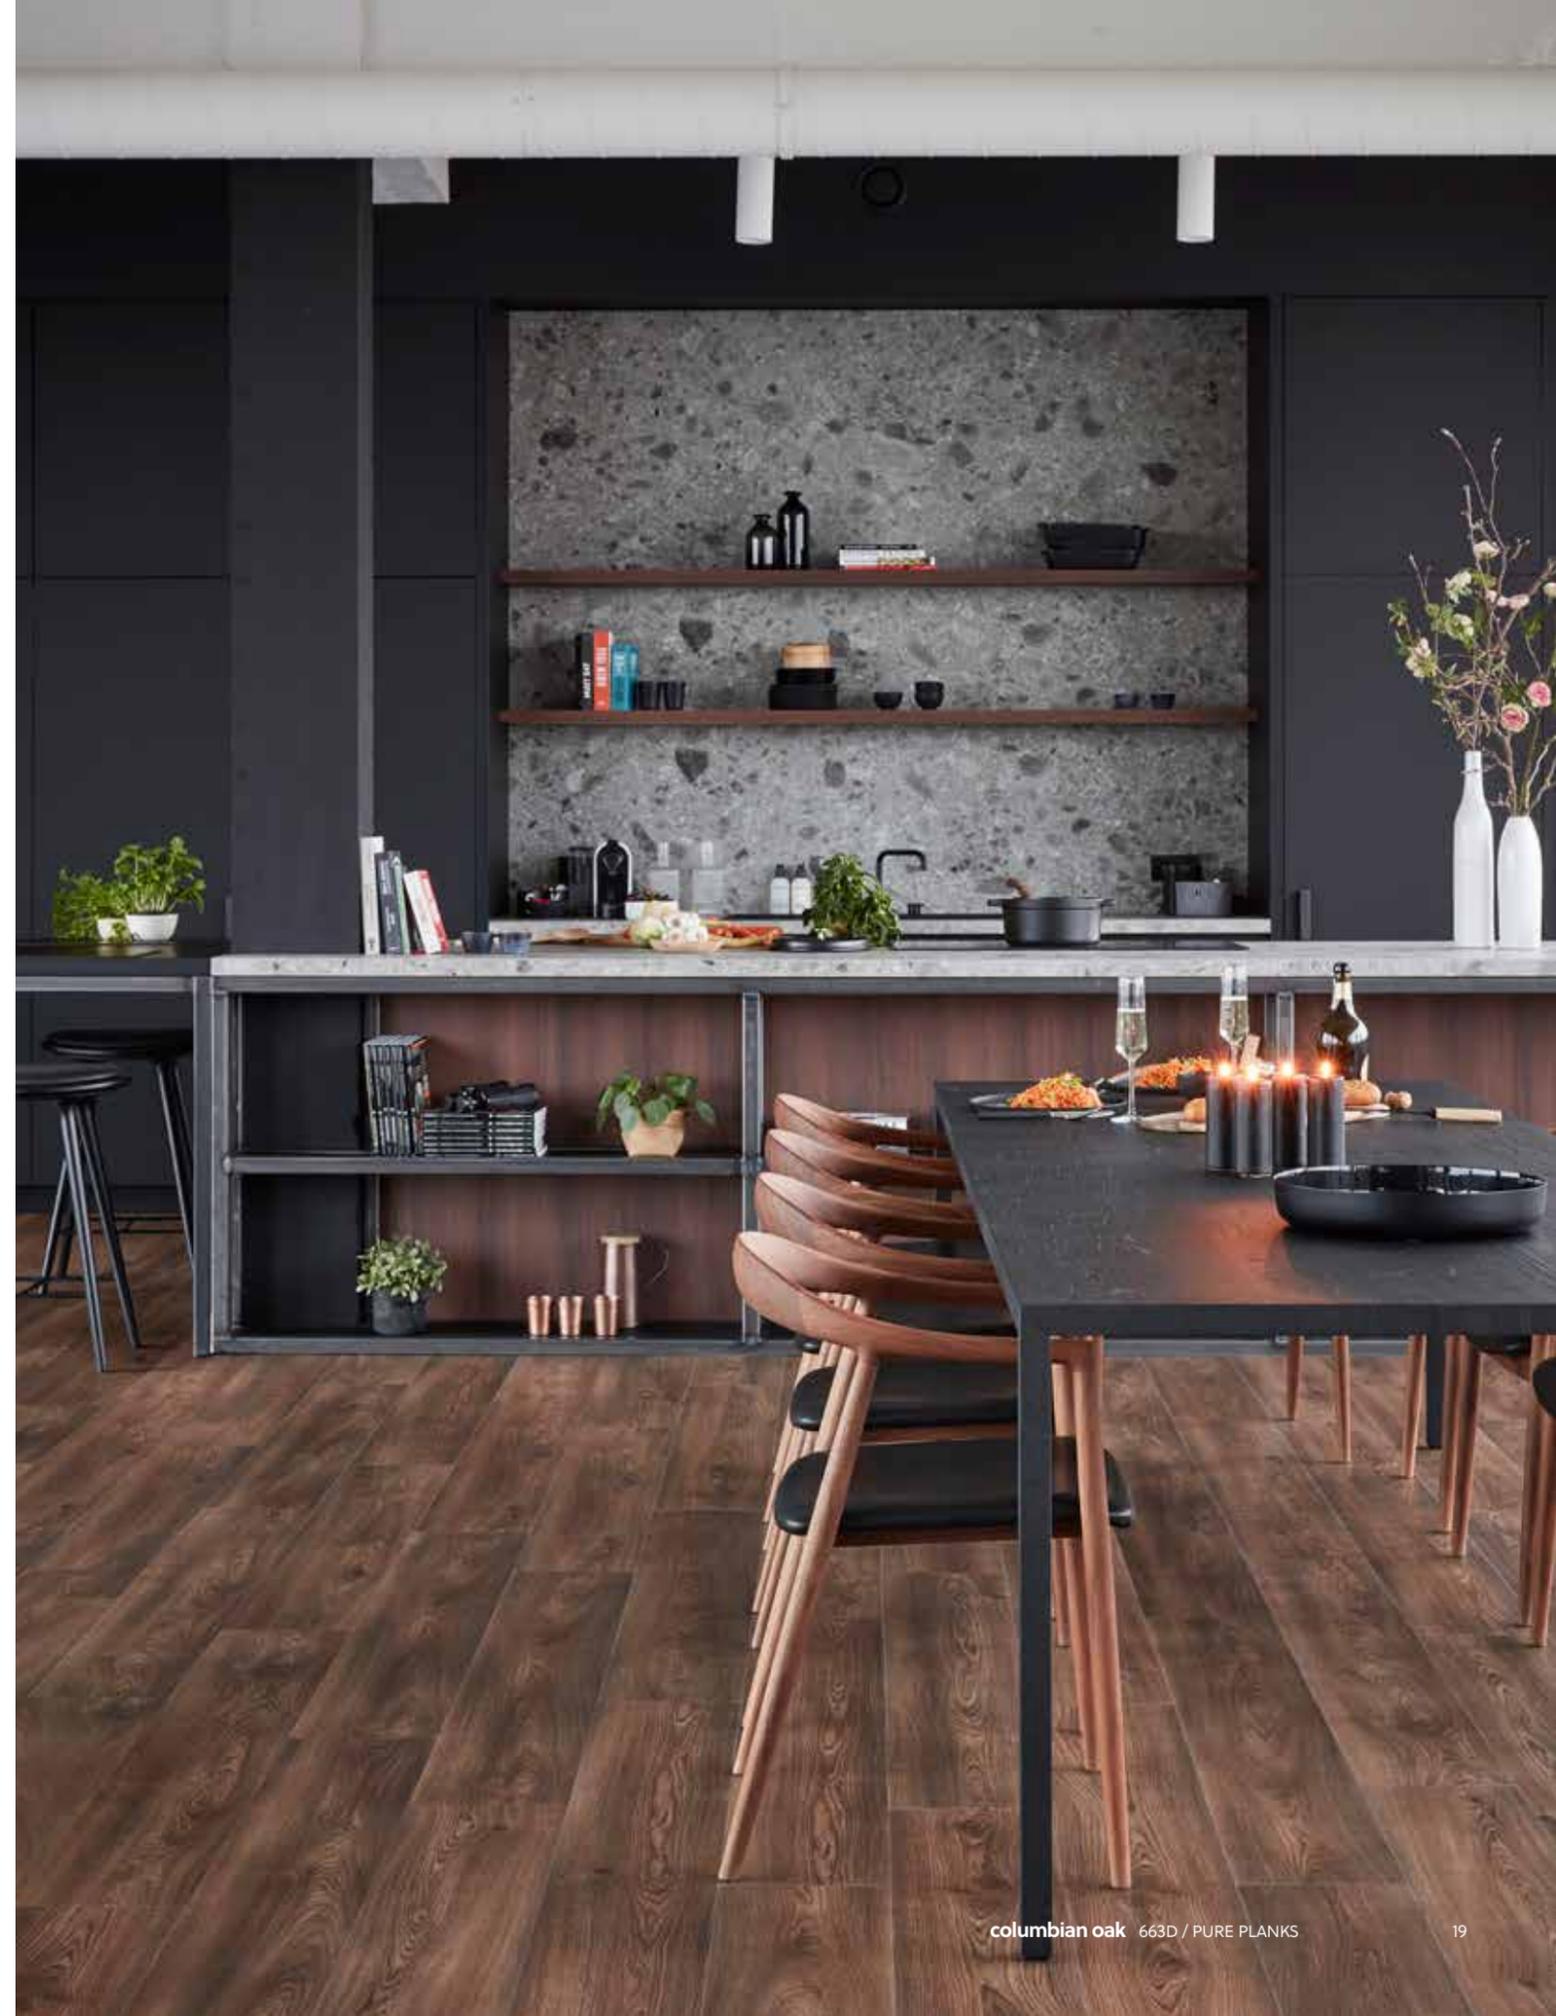

Bring the colors of nature into your home.

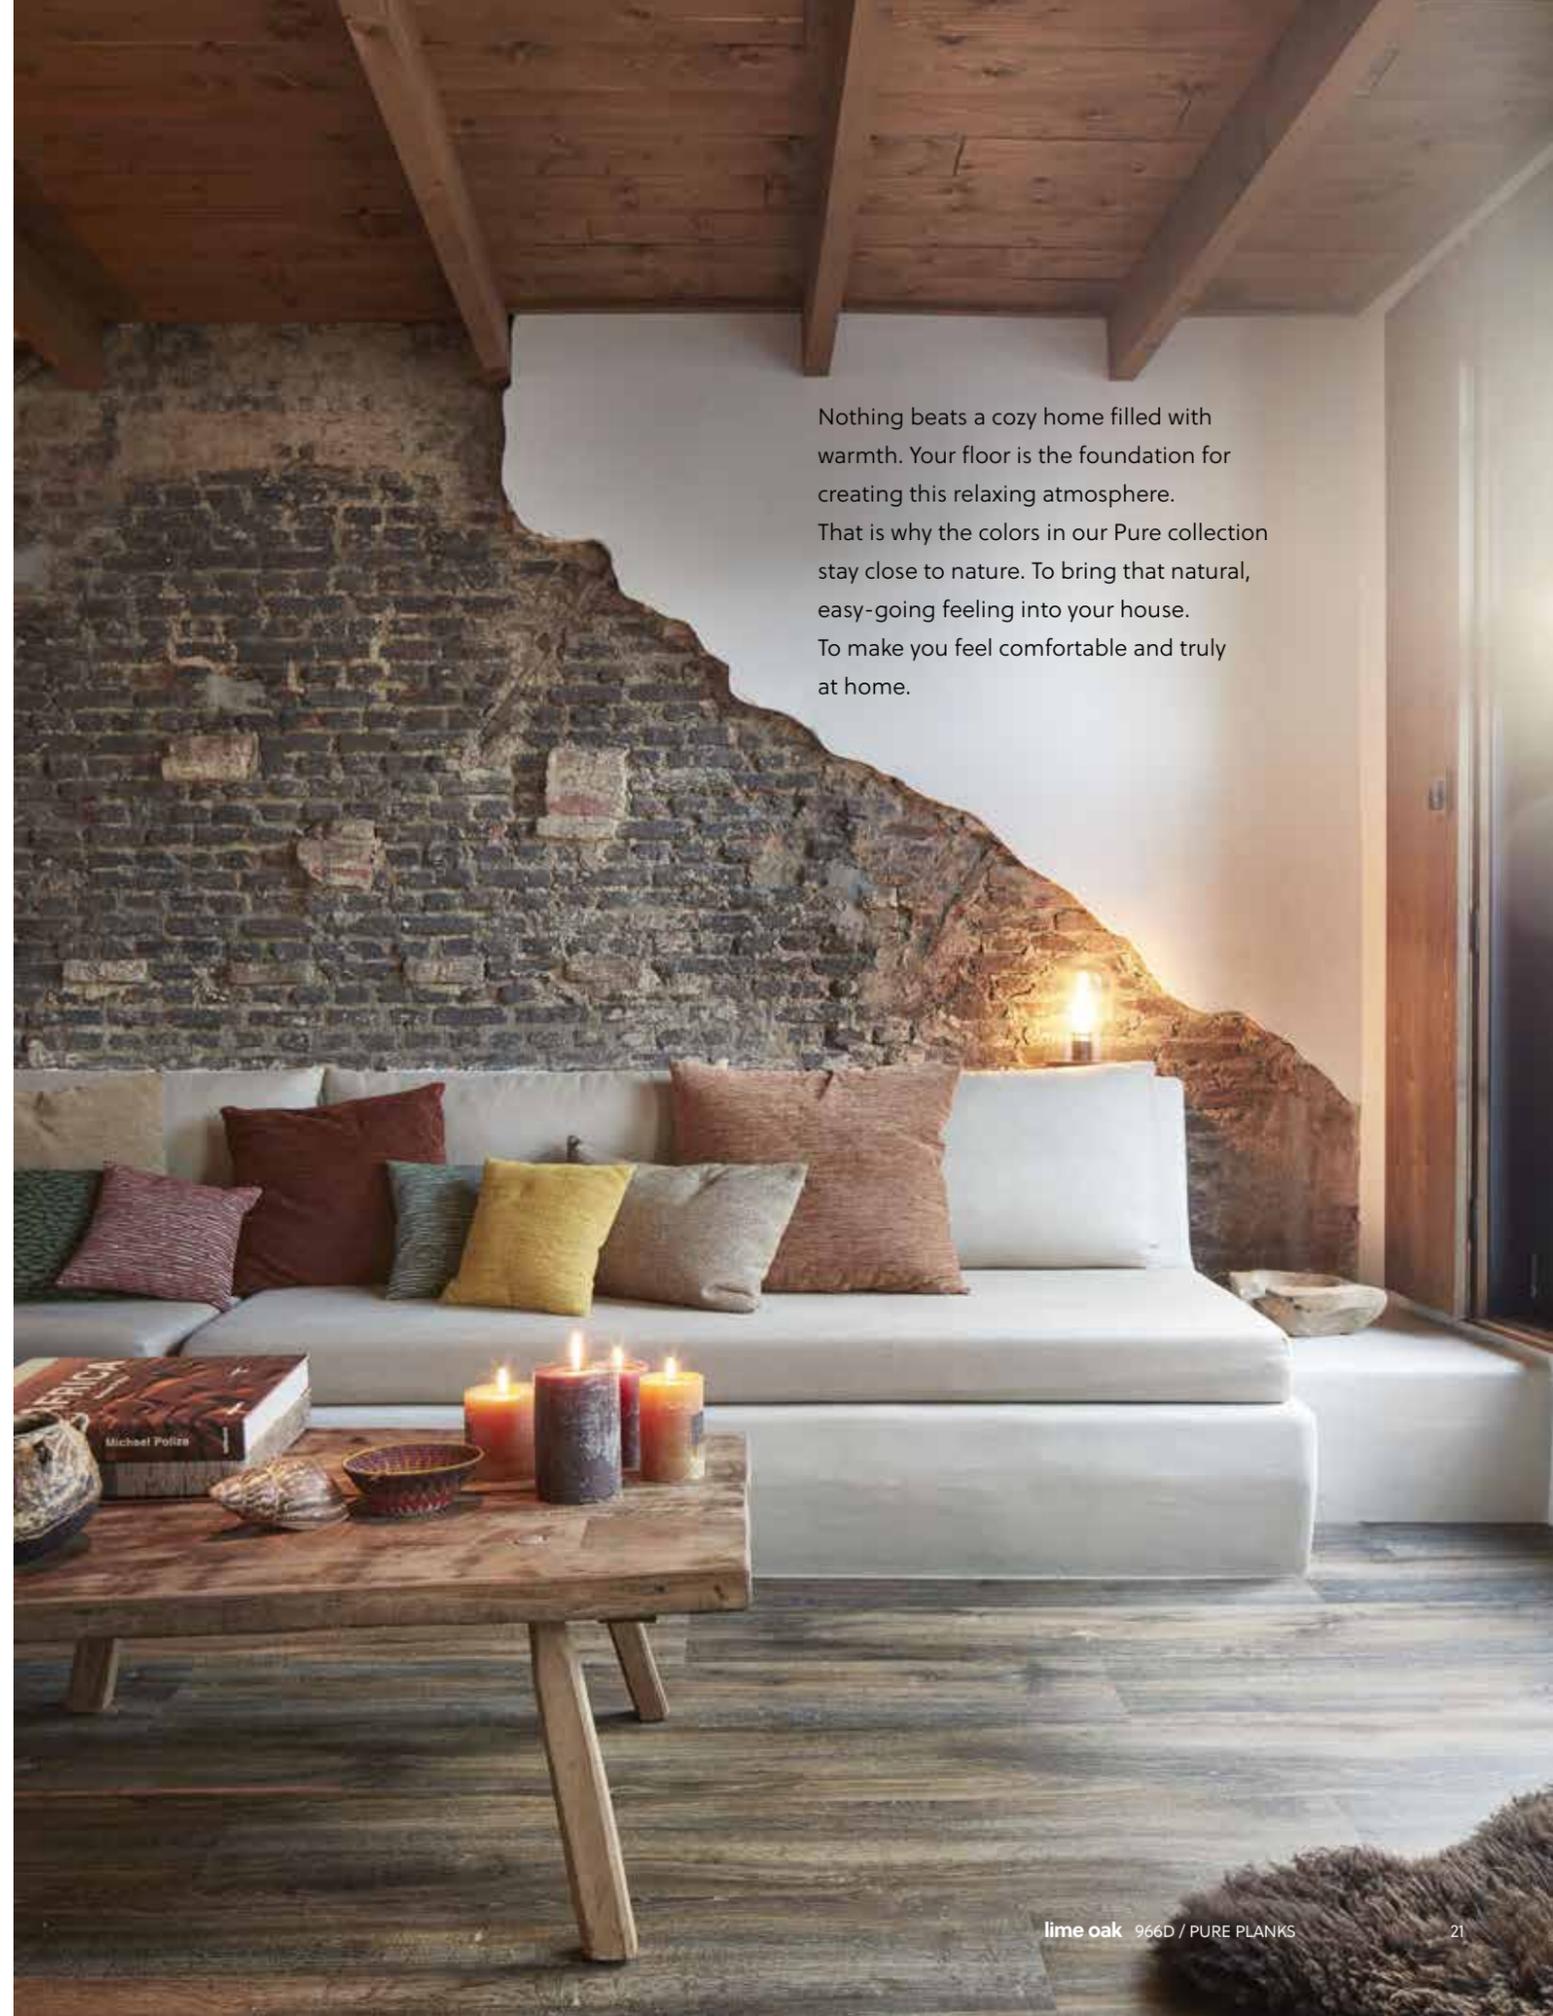

From time to time, just stop and look around.

Wondering whether this Pure floor will fit your interior? Of course it will, because there's a floor for every home. A cozy cottage, a modern city apartment or a lively family place: Pure will fit in just perfectly.

The foundation for every kind of lifestyle.

Nothing beats a cozy home filled with warmth. Your floor is the foundation for creating this relaxing atmosphere. That is why the colors in our Pure collection stay close to nature. To bring that natural, easy-going feeling into your house. To make you feel comfortable and truly at home.

Pick your color.

The Pure floor doesn't stop you from living. Just give it a sweep now and then and it will look as good as new.

**Play the game.
Make a mess.
Feel at home.**

**Life isn't perfect,
but this floor can
handle it.**

A woman with curly blonde hair, wearing a light blue button-down shirt, is lying on her back on a white sofa, smiling. A young child with blonde hair, wearing a blue and white striped shirt and khaki pants, is crawling on the floor in front of the sofa. The floor is dark wood. The sofa has several pillows: a large orange one, a blue one, and a grey one. The scene is brightly lit, suggesting an indoor setting.

**Crawl, tip-toe, walk, run
and jump. This floor keeps
quiet no matter how loud
you get.**

Floors for a lifetime of fun.

We know you won't always be able to treat your floor with extreme care. But that's okay. We are confident that our Pure floors will last forever and ever. That is why we offer you a lifetime warranty. And even if

you want to replace your floor one day, that's okay too. Because all our planks and tiles are easy to remove and 100% recyclable.

columbian oak 946M / PURE PLANKS

Easy from start to finish.

Underlay Dreamtec+

Our unique Dreamtec+ underlay reduces noise and flattens out little defects in your subfloor. Properly installed it functions as a moisture barrier too. On top of that its smooth surface allows the floating floor to move freely over the underlay, an important factor during its lifetime.

Skirtings

The Pure collection provides skirtings that match your floor. Same color, same print. Do you prefer paintable skirtings that match the wall instead? That's possible as well. The perfect way to finish your room and cover up expansion gaps.

Profiles

To provide a smooth transition with another floor, you can use our profiles. Choose for a print that matches your floor or go for a modern aluminum look.

DreamClick®

click any way you want

fast & easy installation

Installing your Pure click floor will give you **instant satisfaction.**

Instant satisfaction, thanks to the fast and easy installation with our DreamClick®. It takes no more than 4 steps:

1. Allow the planks or tiles to adjust to the environment for **48 hours**
2. Clean the floor, install the appropriate **underlayment** as necessary.
3. **Install the floor** using minimal tools.
4. Finish your floor with **skirtings and profiles** for an optimal result.

Let's make life even more easy:

- As the **perfect renovation floor**, our Pure needs little preparation of the subfloor, certainly if you use our Dreamtec+ underlayment.
- Pure is suitable for floor **heating and cooling**

- Using only knives and no saws, Pure has a **dust free** installation
- As a **thermally stable** product, Pure can be installed in front of large windows

More detailed installation instructions can be found on our website or youtube channel: berryalloc.com & youtube.com/berryalloc
